Maria  
Good morning

1. Per your request, downloaded ICIS data (August 25, 2020) and created excel spread sheets for Texas and Louisiana Wastewater Treatment Facilities (SIC 4952).
2. Excel spread sheets for TX and LA have important information (such as: counties, total Major and Minor Permits, physical addresses, Lat / Long , POC, mailing address, etc)
3. Also created a summary table for TX and LA with brief information - such as summary Table (showing counties and number of permits -Major and Minor), physical addresses, Lat / Long , POC, mailing address, etc.
4. Please see attachments for details.
5. There are total five (5) Tribal Minor Individual Non SW Permits in TX and LA (with SIC 4952)
6. Please note: Yesterday, I had technical difficulty to download ICIS data.

For any questions, please call me at x 2783

Syed,

Let's pull a list of wastewater facilities, same process as before. I understand that Gov. Abbott has issued a disaster proclamation for Texas we can use that list of counties for Texas:

Thanks Michael. I'm cc'ing my Branch Chief Maria Martinez, to keep her in the loop. For the water team, do we need to load up WW facilities in the RM?

Thanks!
